## CONSTRUCTION SAFETY

The Board of Education recognizes the district's responsibility to provide a safe school environment for students and staff during construction and maintenance projects.

The **Superintendent of Schools, or his/her designee**, shall be responsible for ensuring that district procedures for safeguarding the safety and health of students and staff are consistent with state law and regulation, including the Uniform Code of Public School Building Inspections, Safety Rating and Monitoring and the Uniform Safety Standards for School Construction and Maintenance Projects. Specifically, the Superintendent shall be responsible for the following items at the specified phase of the construction project:

### Pre-Construction

1. Ensure proper planning for the safety of building occupants during

2. Hire a New York State licensed architect or engineer for projects costing more than \$20,000.
3. Ensure safety issues are addressed for bid specifications and contract documents.
4. Provide notice to parents, staff and the community in advance of any construction project costing \$20,000 or more to be conducted in an

5. Revise the district's emergency management plan, when appropriate, to

plan and emergency evacuation and relocation procedures during the construction process.

During Construction

1. Monitor construction and maintenance activities to check for safety violations and to ensure that certificate of occupancy requirements are continuously maintained.
