ACADEMICS

Every student/athlete must realize that they are students first, and athletes second. This

playing time. As players advance closer to the varsity level, their playing time may increase accordingly at the JV level. At the middle school level, all players will play each game. Once again, equal time is not always possible, but the M.S. coach will make every effort to balance time between all student/athletes.

Playing time will be determined taking the following factors into consideration:

1. Advanced Level of Skill
2. Sound Attitude – (4 C's)
3. Hustle
4. Work Ethic
5. Coachability
6. Commitment

CHAIN OF COMMAND FOR EXPRESSING CONCERNS

If your child has a concern, the following chain of command for expressing these concerns must be followed:

1. Student athlete will speak with the coaching staff privately to discuss the matter before or after practice.
2. Parent/Guardian speaks with Head Coach.
3. Parent/Guardian contacts the office of HPEA to schedule an appointment with Mr. Nagengast or Mr. Panariello

*Please note that a handbook for student athletes and parents has been developed. This handbook can help answer any questions you may have concerning your child's participation in the Bay Shore School District's Interscholastic Athletic Program. This handbook can be found at <https://www.bayshoreschools.org/>

If an emergency occurs at the bowling alley Coach Joe would notify emergency personnel and call 911 (if necessary) while I remain with the athlete. I would escort the athlete in the ambulance if a parent/guardian was not present and Coach Joe would remain with the athletes. Our captains would meet an ambulance at the door to guide them the injured athlete.

At an away contest, Coach Joe would remain with the team and return on the bus. I travel in the ambulance if necessary unless there was a parent present.
